Hi! I'm an efficient, dedicated Software Developer with about 7/8 years of experience in the industry - mostly in remote positions. I highly price a good culture of trust, appreciation, loyalty and kindness. I've always rooted for the companies I worked for doing my best to allow them to succeed. I know I'm far from perfect, that's why I'm committed to constantly improve myself. I'm a fast learner, therefore I don't back up when I have to learn a new skill, code base or programming language. When I'm not coding I spend my time with my dear family, practicing sports, volunteering, playing music and working on my car!

Work History

2019-02 -

Full Stack Developer

2019-12

Globsit S.r.l, Biancavilla, Italy (Remote)

- Designed and developed software applications for **SmartDrones** : an innovative ecosystem that helps customers improving the performances of their solar plants with drones and AI powered services. All the software is extremely easy to use, and is having a huge success with customers from all over the world! (Full Stack with the exception of the AI part which had a dedicated developer)
- Developed **TwitterIt** : an online tool for Twitter live sentiment analysis that lets you discover what is the Twitter population generally thinking about a subject and correctly anticipated the results of the European 2019 election in Italy. The application is deployed as a **PWA** , and has an Android and iOS version as well (Front End / Mobile)
- Added **Python** to my programming languages toolbox, starting from absolutely zero knowledge to now fluently writing Flask applications, APIs or standalone scripts
- Helped Globsit starting from an idea to prototyping, implementing and presenting it to the customers, allowing the company to enter a period of exponential growth
- Tech stack: Python / Flask / javascript / knockout.js / jquery / HTML5 / CSS3 / Kivy / GIT with GitHub / Cordova / XCode

2018-02 -
2018-04

Full Stack Web Developer

Richmond Group Ltd, Bournemouth, United Kingdom

- NET Core web applications and services development (Full Stack)
- Tech stack: .NET Core / C# / Entity Framework / SQL / javascript / HTML5 / CSS3 / jquery / React.js / Microsoft Azure / GIT with GitHub

2013-04 -
2017-11

Full Stack Web Developer

Neotek Solutions S.r.l., Catania, Italy (Remote)

- Designed and developed several responsive online tools being part of the same platform to help medical labs and patients to more easily manage appointments, at-home assistance, notifications and results. (Full Stack)
- Redesigned several legacy online tools to a more modern responsive Material Design UI. (Front End)
- Designed and developed a number of responsive websites for our clients. (Front End)
- Tech stack: .NET / C# / WebForms / SQL / javascript / HTML5 / CSS3 / jquery / knockout.js / SVN

2012-09 -
2016-08

Full Stack Web Developer

Salvatore Pistillo, Catania (Remote), Italy

- Developed different web and hybrid mobile applications in this long term working relationship with who I consider and deeply appreciate as my mentor
- Tech stack: .NET MVC / C# / Entity Framework / javascript / jquery / knockout.js / HTML5 / CSS / Cordova

Education

2007-09 -
2012-07

High School Degree: Computer Science And Programming

Istituto T.I. Informatico "V. Scuderi" - Ramacca, Italy
Final grade 100/100

2011-09 -
2011-10

Grade 4-5-6: English Language

Trinity College London - Bournemouth, UK
